MENGXUAN SHEN / CPT205 COMPUTER GRAPHICS

3D Castle Environment

Original C++ / OpenGL coursework - model geometry preview

Project overview

The project source includes C++ OpenGL scene code, textured OBJ geometry, camera controls, light utilities, environment textures and a six-face skybox.
The model preview above was rendered directly from the supplied Res/building.obj using VTK. It is not a screenshot of the original Windows OpenGL application.

Original artifacts inspected

draw.cpp, Draw_model.cpp, light.cpp, skyBox.cpp, utils.cpp
Res/building.obj, bell.obj, light.obj, jiaju.obj, niu.obj
Texture PNG/JPG files and Res/skybox/{front,back,left,right,top,bottom}.jpg
No standalone castle assignment PDF or recorded demo was present.
